Antiques and Art at Brook Lodge

I have attached my recommendations for art from Brook Lodge to be retained by the company and returned to Building 88 for temporary storage. I have made these recommendations on the art being appropriate for use within the company. They are pieces that could be used in Peapack, buildings here in Kalamazoo, national or international sites.

I have also attached digital photographs of the antiques from Brook Lodge. The written sheets give the size, location and short description of each item. I have listed the items I believe to be "family pieces". Don may want to review all the items on the attached sheets. Several members of the Brook Lodge staff think there is a file cabinet in the basement of Awards Hall that lists the family pieces, you may want to look for this folder. . (The attached list/photographs does not include the two clocks or painting of Mrs. Pepys in the Dining Hall, I neglected to photograph them. I do think these items should be left with Brook Lodge. They will be on the appraisal sheet for Jim Kahllo to evaluate.)

Jim Kahllo, art and antique appraiser, will complete the appraisal on all the above items the second week in January. I will forward that information to you as soon as I receive it.

Please give me a call if you have any questions or would like to meet at Brook Lodge to review any of these items.
